SPREAD THE GOOD NEWS.

Through the different papers this advertisement will reach 80,000 families at about the same time. If every reader sees it and every seer reads it, it will be read, talked about and thought about almost simultaneously by four millions of people. But there's the rub. Some of the very people who would be most interested may happen to skip it. Your neighbor, Mrs. Blank, may be ready to purchase. They will cost her a great deal of money if bought now and here. And that's the point. Tell her about it. Hundreds came last week who would never have heard of the sale but for the kindly way in which readers told their friends.

To Distant Friends and Patrons.

Here is how it is done in many places twenty, fifty, one hundred miles away: Six or eight families compare notes from our advertisements and see what can be bought to advantage by each. Then one person is commissioned to visit the city and make the selections. Of course as far as possible we will fill mail orders for these goods. When all convenient, however, personal choice is better.
